PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following correspondence on the subject of the disposal of Government unoccupied lands commanded by the Cauvery Reservoir Scheme :—

(i) Letter No. 7976, dated the 10th February 1912, from the Revenue Commissioner in Mysore.

(ii) Enclosures :—

(1) Letter No. 599, dated the 11th January 1912, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

(2) Letter No. 652, dated the 25th January 1912, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

(3) Letter No. 1962, dated the 28th October 1911, from the Superintending Engineer, Cauvery Reservoir Works, to the Deputy Commissioner, Mysore District.

(4) Letter No. 268, dated the 19th January 1912, from the Superintending Engineer, to the Deputy Commissioner.

(5) D. O. dated 1st February 1912, from the Revenue Commissioner in Mysore, to the Deputy Commissioner, Mysore District.

(6) D. O. No. 173, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

Letter No. 7976, dated 10th February 1912, from the Revenue Commissioner in Mysore.

With reference to Government Proceedings No. C. 13-19—84-90, dated 12th October 1911, sanctioning the construction of the first stage of the Cauvery Reservoir Scheme, I have the honour to forward herewith copies of letters No. 599 and 652, dated 11th and 25th January 1912, respectively, together with the enclosures in original, from the Deputy Commissioner, Mysore District, soliciting instructions as to how the lands commanded by the scheme should be disposed of.

2. The Deputy Commissioner states that applications for the grant of lands in the tract are being received in large numbers, and that therefore the policy which should guide the Revenue authorities in the disposal of these lands should be decided, and definite instructions issued immediately.

3. The Deputy Commissioner divides the lands generally into three classes :—

(i) those which will be irrigated by the first stage of the Project which has been taken on hand at present,

(ii) those which will be irrigated by the second stage of the Project, and

(iii) those which will become submerged by the construction of the Reservoir.

4. As regards their disposal, the Deputy Commissioner is of opinion that the lands under class (i) *i.e.*, those that become irrigable by the completion of the first stage should not now be granted, as Government cannot forego their share in the increased land values which will accrue in consequence of the irrigational facilities. As regards the second class of lands, *i.e.*, lands which will become irrigable after the second stage is accomplished, the Deputy Commissioner proposes that, as this stage is not likely to be reached within the next 15 to 20 years, these lands might now be granted for cultivation under the ordinary rules, subject of course to the condition to pay contribution when irrigational facilities are made available. As regards the third class, *i.e.*, those lands that will become submerged by the completion of the Reservoir, the Deputy Commissioner considers that they may be granted for cultivation only on temporary tenure, terminable at the close of each harvest, subject to renewal after each year.

5. The general policy which should be adopted by the Revenue authorities in the disposal of the lands of the kind in question is laid down in Government Order No. R. 2017-27—L. R. 507-09-1, dated 30th September 1910. According to this, no darkhast could be accepted for any Government lands likely to be converted into wet by the irrigation project, except in the interests of *bona fide* needs of cultivation, and that too, under the special orders of Government. To follow this procedure in the present case would entail long and protracted correspondence, resulting in no small inconvenience, the area concerned being very extensive and the number of applications to be dealt with being very large.

6. On a careful consideration, I am of opinion that the Deputy Commissioner's proposals with regard to the disposal of lands comprised in class (i) require some modification.

Proceedings of the Government of His Highness the Maharaja of Mysore,

His proposal to reserve these lands till the work is completed, though in accordance with the Government Order of September 1910, does not seem to me to be of advantage either to Government or to the raiyat population. There is no object in keeping the lands idle. I would, therefore, suggest that they might be granted for cultivation on *Eksal* tenure from year to year under the rules prescribed in Government Order No. R. 176-85—L. R. 46-08-4, dated 10th July 1911, so far as they are applicable, with any modifications that may be deemed necessary. The lands need not be sold now, but may be granted to the first applicant without an upset price for one year only. He may raise any crop he likes, the question of permanent disposal of the land being left to be decided when the irrigation facilities are provided. The advantages of thus restricting the tenure will be:—

(i) the lands will be at the disposal of Government at the end of every cultivation season,

(ii) they may be utilized in any way the Government may deem proper, for instance, for being given in exchange for lands that will be acquired for the Project,

(iii) the lands that will be required for the channels and other purposes can be made readily available without the necessity of having to pay any compensation therefor,

(iv) it will prevent capitalists from land jobbing and mere speculation,

(v) good prices will be realised when they are eventually disposed of, as the local raiyats who take up the lands from year to year will have known their value and potentiality. Thus Government will realise the increased land values due to irrigational facilities,

(vi) the interests of the *bona fide* raiyats will be safe-guarded,

(vii) Government will also realise some assessment during the years the reservoir is building,

(viii) the lands may be sold by auction, or for an upset price, or on payment of a contribution to be fixed by Government, when water is made available,

(ix) the economic resources of the people will receive some augmentation during this period from the crops grown.

7. Of course, I am aware of the disadvantages of the system of temporary (Eksal) tenure, as under it the raiyats would have no incentive to work hard and to incur sufficient outlay in improving the lands so as to get from them the largest possible outturn; but the advantages set forth above far outweigh the disadvantages. I may also state that I have since pointed out to the Deputy Commissioner the advantages of the *Eksal* tenure in dealing with the lands in question and he has expressed himself in favour of it (*vide* copies of D. O. correspondence herein enclosed).

8. The proposals of the Deputy Commissioner in respect of lands coming under classes (ii) and (iii) have my full concurrence and may be approved.

9. Considering the magnitude of the area and the interests involved, I submit the subject for the early orders of Government.

10. It will be seen from the enclosures to the Deputy Commissioner's letter that the exact extent of lands commanded by the scheme and coming within the scope of the above proposals are being worked out in the Public Works Department.

ENCLOSURES.

Letter No. 599, dated 11th January 1912, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

I have the honor to state that, in view of the construction of the Kannambady Project, darkhasts for assessed unoccupied gomal and kharab lands are stated to be on the increase in the Mandya, Nagamangala, and Malvalli and T. Narsipur Taluks and the Sub-Division Officers have been seeking definite instructions in the matter.

The Government seem to contemplate to carry out the project in two stages, and they have sanctioned for the present only the 1st stage of the project at a cost of 89 lakhs of rupees and the work is now under progress. After the completion of the 1st stage of the project, it is intended to extend the existing channels, *viz.*, Chikka Devarai, Devaroi and Virajanadi and to bring under irrigation an additional extent of 25,000 acres mostly in the T.-Narsipur and Malvalli Taluks and to a very small extent in the Seringapatam and Mysore Taluks. To show exactly where this additional extent of land lies, I forward herewith a copy of letter No. 1962, dated 28th October, from the Superintending Engineer, Cauvery Reservoir Works, Mysore. In para 4 of his letter, this officer suggests that all applications for Government lands in these tracts may be held in abeyance pending the disposal of the question of extending the channels.

Land Revenue, dated 10th July 1912.

2. After the completion of the 2nd stage of the project, an extent of 150,000 acres is expected to be brought under irrigation in the taluks of Mandya, Nagamangala, Malvalli and Channapatna. I do not know how many years it will take to complete the 2nd stage of the project, but so far as one can see, the project may not become an accomplished fact at least before another 20 years. I am therefore of opinion that Government lands in Nagamangala, Mandya and Malvalli Taluks, that will be brought under irrigation by the great channel proposed to be drawn from the Reservoir after completion of its 2nd stage, may, with advantage, be disposed of on the conditions laid down in Government Proceedings No. R. 2017-27—L. R 507-09-1, dated 30th September 1910, and a perusal of your letter No. 4189-90, dated 26th October 1911, will show that you and the Chief Engineer hold the same view in respect of the question. In addition to the condition laid down in the Government Proceedings, of 30th September 1910, I would prescribe another condition, *viz.*, that the holder of the land should give up to Government, without claiming compensation, the portion required for the Nala.

A copy of the circular issued by the French Rocks Sub-Division Officer to the taluks in his division is enclosed herein for your information. On enquiry I learn that no sketch has yet been prepared in the Public Works Department showing alignment of the new channel to be drawn from the reservoir after the 2nd and final stages of the project are completed, nor a statement showing the details of lands that will be brought under irrigation has been attempted in that Department. Applications for gomal lands in these taluks submitted to your office for sanction are being returned by you to furnish information whether the survey numbers applied for lie within the area irrigable under the project. As the alignment of the channel itself is not yet definitely decided upon, it is not possible to furnish the information called for by you.

3. There are again applications for Government lands that lie within the water-spread of the proposed reservoir. As these lands will not be brought under submersion within the next five or six years, there is no object gained by withholding those applications. I would therefore recommend as suggested by the Sub-Division Officer that these lands may be given out to the first applicant on temporary tenure, terminable at the close of each harvest, subject to renewal at the end of each year.

4. The question that demands immediate solution is how to dispose of the lands that will be brought under irrigation by the extension of Chikkadevaroi and Virajanadi channels referred to in para 1 *supra*. The 1st stage of the project will be an accomplished fact perhaps within the next five years and the extension of the channels may be taken up afterwards. So, in disposing of these lands, care should be taken that the Government revenue does not suffer. As suggested by the Superintending Engineer, these lands are certain to rise in value after the completion of the project and I am therefore not in favour of applying the provisions contained in the Proceedings of the 30th September 1910, in respect of these lands.

Under these circumstances, I solicit definite instructions as to (1) how these lands may be disposed of to the best advantage of Government and (2) whether you approve of my suggestions relating to the disposal of darkhast applications for lands in the taluks of Mandya, Nagamangala and Malvalli as also the lands that will come under submersion in carrying out the project.

The Superintending Engineer in his letter No. 2032 of 7th November 1911, states that by the construction of the Cauvery Reservoir a number of villages and lands under cultivation will come under submersion, that for the displaced population, new village sites and lands for cultivation will have to be provided for and requests that Government assessed lands under the Hemagiri and Mandagere channel extensions, as also lands under the proposed north bank channel from the reservoir in the villages of Chikyahalli, Duddaghatta and other villages near the reservoir and on the south bank in the villages of Undavadi, Hulikere and Belagola should be reserved for the benefit of the displaced population. On this point also, I seek your instructions.

As the Sub-Divisional Officers seek early instructions, I solicit that you may be so good as to pass early orders so that the pending darkhast applications may be disposed of without much unnecessary delay.

———

Letter No. 652, dated 25th January 1912, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

In continuation of my letter No. 599, dated 11th January 1912 soliciting instructions regarding the disposal for cultivation of Government lands in certain taluks to be benefited

by the Cauvery Project, I have the honour to submit herewith for kind perusal a copy of letter No. 268, dated 19th January 1912, received from the Superintending Engineer of Cauvery Works from which it will be seen that the project for the new irrigation channel from the Reservoir is in the course of being sent up for orders to the Chief Engineer.

Under these circumstances, I beg to suggest that it will not be to the interests of Government to defer disposing of darkhasts for waste and gomal lands.

Very early instructions are solicited in the matter.

Letter No. 1962, dated 28th October 1911, from the Superintending Engineer, to the Deputy Commissioner, Mysore District.

I have the honor to invite your attention to para 7 of Government Proceedings C. No. 13-19—84-90 of the 12th instant in which the project for the first stage of the Cauvery Reservoir at Kannambadi has been sanctioned. The additional irrigation of 25,000 acres noted therein is proposed to be secured as follows:—

I. Extending the Chikdevaraisagar channel on the north bank of the river. Extending the Devarai or Virjanadi channel on the south bank of the river.

II. The extension of the Chikdevaraisagar channel from its present terminus near Bannur will run in the following villages of T.-Narsipur Taluk:—

Bannur, Chamanhalli, Attahalli, Bettahalli, Bevanhalli, Tippankoppal, Kalnakoppal, Ukalgere, Tamadipur, Kannayakanhalli, Chitigowdanhalli, Halvara, Kangahalli, Shigowdanpur, Hanakola, Ukalgere, Surakhalli and Purigal.

The tract of country between these villages and the Ramaswami channel will be benefited by the extension.

This channel extension next enters the Ravani or Marchalli tank in the Malvalli Taluk. The tract to be benefited in the Malvalli Taluk will comprise the following villages:—

Marehalli, Malvalli, Auchekodi, Ankanahalli, Gowdagere, Hadli, Basavanpur, Nadakalpur, Megalpur, Halshihalli, Gajnur, Kamasagar, Linganpur, Chandahalli and the intervening villages.

III. By extending the Virajanadi or Devarai channel on the south bank, the tract of country lying above the Rajaparameswari channel and between it and the following villages will be benefited:—

Kempanhundi, Melhalli, Harohalli of the Seringapatam Taluk, Ankanhalli, Hunganhalli, Madegowdanhalli, Kurigowdanhundi, Kupya in the T.-Narsipur Taluk and Madhavagere, Hongatta, Dudgere, Santehosahalli, Siddaramanhundi, Dyavargowdanhundi and Pura in the Mysore Taluk.

IV. I also enclose a tracing plan from topo sheets to show the tract affected. These lands are certain to rise in value, when the extensions of channels referred to in para 1 are undertaken, to a share of which increase Government may look forward. In these circumstances, I beg to suggest that all applications for Government lands may be held in abeyance pending the disposal of the question of extending the channels.

Letter No. 268, dated 19th January 1912, from the Superintending Engineer, Cauvery Reservoir Works, to the Deputy Commissioner, Mysore District.

In reply to your letter No. 162 of the 8th instant in respect of darkhast applications for cultivation out of gomal survey numbers, etc., I have the honor to inform you that the project for a new irrigation channel from the Cauvery Reservoir is being sent up to the Chief Engineer for his orders. A reply as to the villages and survey numbers lying within or outside the area irrigable under the new canal can, therefore, only be given after the Chief Engineer's approval to the line proposed is received.

2. It is proposed to give water to the additional 25,000 acres of fresh lands referred to in the Government Proceedings sanctioning the project by extending the existing channels after the Reservoir is constructed, if it is decided that work in the 2nd stage is not to be proceeded with. As regards the exact villages and survey numbers of land that will be brought under cultivation under such extensions, I would invite your attention to my letter No. 1962 of 28th October 1911 in which it is stated how the additional 25,000 acres to be brought under wet cultivation are situated. The tracing plan forwarded with that letter shows the tract affected.

Land Revenue, dated 10th July 1912.

D. O. dated 1st February 1912, from the Revenue Commissioner in Mysore, to the Deputy Commissioner, Mysore District.

I have received your reports about the disposal of the lands which will be commanded by the channels from the Kannambadi Reservoir.

I have some difficulty as I do not quite make out how you propose to deal with them. My idea is that all lands which will be irrigated by the present sanctioned reservoir might be given out on *Eksal* tenure, to be renewed from year to year.

The lands need not be sold, but granted to the first applicant without an upset price for one year only. He may raise any crops he likes. When the channel is in action, we may decide what to do with the lands—either sell them by auction or for an upset price or on payment of contribution and so on. We may want some of these lands for excavating channels or to give to raiyats whose lands have been taken up elsewhere. By this means we may prevent land jobbing and speculation and keep out capitalists who merely want to speculate. The local raiyats who take up the lands from year to year would know the value of lands when water is available and pay a good price. Our hands will be entirely unfettered and the interests of the local raiyats will be better safeguarded. We shall also get some assessment during these five or six years when the Reservoir is building. There is no object in keeping the lands idle all the time. Let the raiyats raise some crops if they can, adding to the economic resources of the people.

As regards 150,000 acres which will be brought under cultivation in the second stage of the Reservoir, some 15 or 20 years hence, there is no object in delaying their disposal. *Eksal* tenure would be inconvenient for so long a time. The lands may be sold outright now if the condition, that, if the irrigation is made available, an acreage contribution fixed by the Government will be paid, is insisted upon. We shall thus get a permanent income from the lands during all these years.

Lands in the bed of the Reservoir may also be given on *Eksal* tenure. I shall feel obliged by favour of an expression of your views at length. Kind regards.

D. O. No. 173, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.

I am in receipt of your D. O. of the 1st instant. I quite endorse your views in the matter of the disposal of the lands that may be brought under irrigation after the completion of the first stage of the Cauvery Reservoir Project. They may now be granted on "Eksal tenure," as suggested and disposed of finally either for an upset price or by public auction according to circumstances.

No. R. 166-68—L. R. 357-11-2, DATED BANGALORE, 10TH JULY 1912.

ORDER THEREON.—Government approve of the proposals of the Revenue Commissioner, which are concurred in by the Chief Engineer, and are accordingly pleased to direct that darkhasts for Government unoccupied lands (including Gomal and Kharab) commanded by the channels under the new Cauvery Reservoir and also for those that will be submerged by the reservoir, be disposed of under the following rules:—

I. Lands that will become irrigable after the first stage of the project is completed and the channels are extended, shall be granted for *Eksal* cultivation, that is, from year to year, under the rules laid down in Government Order No. R. 176-85—L. R. 46-08-4, dated the 10th July 1911, in so far as they may be applicable and with such modifications as may be deemed necessary, till the first stage is completed and water is made available. They need not, however, be sold by public auction but shall be granted without an upset price to the first applicant, who will be at liberty to raise thereon any crop he likes.

II. The manner of disposal of the occupancy of these lands for permanent cultivation will be decided after the first stage of the project is completed and water is made available for irrigation.

III. Darkhasts for lands that will become irrigable after the completion of the second stage of the project, shall be disposed of as they are received, subject to the conditions laid down in Government Order No. R. 2017-27—L. R. 507-09-1,

dated the 30th September 1910, and subject also to the further condition that the holder of the land should give up to Government the portion that may be required for the nala, without claiming any compensation.

IV. Lands that are likely to be submerged by the reservoir, shall also be granted for cultivation on *Eksal* tenure as indicated in Rule (I) above. The persons who take up the lands for such temporary cultivation will not be entitled to any compensation on account of the submersion of the lands.

READ—

The following papers on the subject of the budget estimates under the Irrigation Cess Fund for the year 1912-13 :—

(1) Official Memorandum No. 12829-36, dated 13th May 1912, by the Revenue Commissioner, reviewing the district budget estimates received with his Memo No. 12838, dated 13th May 1912.

Subject :—

The marginally noted communications from the several Deputy Commissioners and Presidents of District Boards submitting budget estimates of receipts and expenditure under Irrigation Cess Fund for the year 1912-13.

1. No. 534, dated 15th March 1912 (Bangalore).
2. ,, 881, dated 9—10th March 1912 (Kolar).
3. ,, 765, dated 3—11th March 1912 (Tumkur).
4. ,, 978, dated 7th May 1912 (Mysore).
5. ,, 400, dated 28th February 1912 (Hassan).
6. & 7. Nos. 615 and 805, dated 24—26th February 1912 and 22nd April 1912, respectively (Shimoga).

(2) Letter No. 5975—B. & R. 746, dated 6th April 1912, from the Comptroller, forwarding a statement of probable assets under the same fund on 1st July 1912.

(3) Letter No. 2997—B. 1190, dated 20th April 1912, from the same officer, forwarding a statement showing the expenditure under the head for the last three years.

I. RECEIPTS.

The receipts for the year, as estimated in the several districts are as follow :—

	Rs.
Bangalore	... 27,454
Kolar	... 39,467
Tumkur	... 35,896
Mysore	... 45,369
Hassan	... 29,280
Shimoga	... 49,160
Kadur	... 18,430
Chitaldrug	... 14,274
Total	... 2,59,350

The estimate of the Shimoga District takes into account, in the case of the cess levied on Government lands, only the lump-sum amounts fixed in 1894 for some taluks, the settlement of which has since been revised. Adopting the amounts as per revision survey, the total estimated receipts for this district will be Rs. 51,930. The total receipts for the year may therefore be fixed at Rs. 2,62,100. This, with the balance of the fund on 1st July 1912, as estimated by the Comptroller, would amount to Rs. 4,03,900.

II. EXPENDITURE.

The allotments required for expenditure on works in the several districts have been estimated as follow :—

District	For the annual maintenance repair of river channels (mileage allotments)	For repairs to major tanks and channels			Total estimate
		Incomplete works	Fresh works	Reserve for unforeseen works	
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore	.....	5,502	42,536	.....	48,038
Kolar	.....	3,000	17,000	5,000	25,000
Tumkur	.....	2,931	40,400	.....	43,331
Mysore	52,541	12,205	6,412	28,000	99,158
Hassan	16,490	3,500	8,926	.....	28,916
Shimoga	.....	.....	9,000	.....	9,000
Kadur	.....	762	10,088	150	11,000
Chitaldrug	.....	.....	10,000	.....	10,000
Total ...	69,031	27,900	1,44,362	33,150	2,74,443

The proportionate cost of tools and plant would be Rs. 49,400 and the total expenditure for the year as estimated by the Boards would thus amount to Rs. 3,23,843 or Rs. 3,24,000 in round numbers. Works in respect of which even estimates have not yet been prepared have been included in several instances, and, taking into consideration the allotments and actual outlay of the last three years, this estimate appears very high. It may be revised as follows :—

(*1*) *Bangalore District.*—The statement furnished for this district does not show that any of the works proposed to be undertaken have been duly sanctioned nor that the estimates have been prepared. The allotment for this district may therefore be reduced to Rs. 21,000 on the basis of the actual outlay during the past three years.

(*2*) *Kolar District.*—The District Board has asked for a lump-sum grant of Rs. 3,000 for incomplete works and for a reserve of Rs. 5,000 and no information is forthcoming as to which of the works proposed have been sanctioned. The average expenditure in this district during the last three years was only about Rs. 13,000. The allotment may therefore be fixed at Rs. 19,000, the heaviest outlay actually incurred in any of the past three years.

(*3*) *Tumkur District.*—The necessary estimates do not seem to be ready in regard to the works proposed in the Sira Taluk, and the statement does not show what works have been sanctioned. The allotment may be reduced to Rs. 27,000 on the basis of the largest actual outlay during the past three years.

(*4*) *Mysore District.*—The statements for this district include a reserve of Rs. 20,000 for the repair of tanks and channels generally and an additional amount of Rs. 8,000 for unforeseen works. On the basis of the average expenditure for the past three years, a reserve of Rs. 15,000 should be sufficient.

(*5*) *Hassan District.*—A large number of works in respect of which estimates have not yet been received have been included in the statement. The average outlay for three years is only about Rs. 18,000, but a sum of Rs. 23,000 may be sanctioned for this district on the basis of the actual outlay in 1909-10.

(*6*) *Kadur District.*—For reasons similar to those explained in the case of the Hassan District, the allotment may be fixed at Rs. 9,000.

3. As revised above, the allotment required for works would amount to Rs. 2,04,000 as shown below :—

	Rs.
Bangalore	21,000
Kolar	19,000
Tumkur	27,000
Mysore	86,000
Hassan	23,000
Shimoga	9,000
Kadur	9,000
Chitaldrug	10,000
Total ...	2,04,000

The district programmes are not based on any definite data and it is possible that they may have to be further revised after the total outlay for the current year is known and the estimates for the ensuing year are ready. A separate lump-sum provision of Rs. 20,000 may therefore be made for such unforeseen requirements. Including the proportionate charges for establishment, tools and plant, the total estimate of expenditure may be fixed at Rs. 2,64,300.

4. As the estimates of the Mysore District were received only on the 8th instant, the consolidated estimate could not be prepared earlier.

---

(2) Note by the Chief Engineer on the above received with the Revenue Commissioner's letter No. 13641, dated 30th May 1912.

The total expenditure under this head, as estimated by the Presidents of the several District Boards amounts to Rs. 3,24,000 in round numbers, but the Revenue Commissioner proposes to fix the aggregate grant at Rs. 2,64,300 as against Rs. 2,53.000 sanctioned for the year 1911-12. Its distribution under "Works, Establishment and Tools and Plant" will stand as shown below :—

	Rs.
Works	2,24,000
Establishment at 17½ per cent	39,200
Tools and Plant at ½ per cent is Rs. 1,120, but to round off the figure it is taken at	1,100
Total ...	2,64,300

Land Revenue, dated 10th July 1912.

2. In the absence of fuller details, the basis adopted by the Revenue Commissioner for fixing the grants for each district is the average outlay incurred during the preceding three years. The total grant proposed may, therefore, be accepted.

3. The amount set apart for the annual repairs of river channels in the Mysore and Hassan Districts is Rs. 69,031. Deducting this, the net amount available for expenditure on incomplete and fresh works will be Rs. (2,24,000—69,031) = 1,54,969.

4. *Reserve for unforeseen expenditure.*—It is proposed to reserve a lump-sum of Rs. 20,000 under this head. But provision should be made separately for each district and not in one lump-sum; for, the latter course would not admit of the total grant for each Division and the percentage of establishment and tools and plant charges thereon being separately ascertained and published in the Public Works Budget, as required under the budget procedure. If details are not available for effecting this distribution, the amounts may be arbitrarily fixed for each Division in the first instance and the necessary transfer of funds made from one district to another in the course of the year according to actual requirements.

5. The distribution of expenditure under the "Irrigation Cess Fund" may be fixed in even thousands as shown hereunder:—

District	Incomplete works	Fresh works	Annual repairs of river channels	Total
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.

(3) Letter No. 13641, dated 30th May 1912, from the Revenue Commissioner in Mysore.

In continuation of my memo No. 12838, dated 13th May 1912, forwarding a copy of the consolidated budget estimate under the Irrigation Cess Fund for 1912-13, I have the honor to forward herewith, in original, Chief Engineer's letter No. 4185, dated 23rd May 1912, and its enclosures, furnishing his opinion on the subject.

2. The Chief Engineer proposes that the amount of Rs. 20,000 provided by me as a separate reserve for unforeseen works may, for the present, be distributed among the districts arbitrarily as shown in the margin. This may be done; but, with a view to secure economy and facilitate the transfer of funds from one district to another, the Deputy Commissioners concerned may be informed that they should not draw upon this reserve without previous permission.

(4) Memo No. 4498, dated 7th June 1912, from the Chief Engineer of Mysore, forwarding a copy of his letter to the Revenue Commissioner, No. 4497, dated 7th June 1912.

In continuation of this office No. 4185, dated the 23rd May 1912, I have the honour to inform you that the Executive Engineer, Marikanave Division, has applied for a sum of Rs. 9,000 for the annual maintenance of the channels under the Marikanave reservoir for the year 1912-13, and to request that this amount may kindly be included in the budget esti-

mates under "Irrigation Cess Fund" already forwarded. The total amount required under this head for the year 1912-13 will be Rs. 2,75,000 as noted below :—

	Rs.
(1) Amount required as per estimates furnished by the Executive Engineers of 8 districts, including establishment and tools and plant charges ...	2,64,300
(2) Amount required by the Executive Engineer, Marikanave Division, for the maintenance of channels	9,000
(3) Establishment and tools and plant charges at 18 per cent on item (2) ...	1,620
Total ...	2,74,920

or say Rs. 2,75,000 in round figures.

No. 4498, dated Bangalore, 7th June 1912.

Copy of the foregoing is forwarded, with compliments, to the Secretary to Government, General and Revenue Departments, for information.

No. R. 155-65—L. R. 511-11-4, DATED BANGALORE, 10TH JULY 1912.

ORDER THEREON.—*Receipts.*—The estimated receipts for the several districts as fixed by the Revenue Commissioner are as follow :—

	Rs.
Bangalore	27,454
Kolar	39,467
Tumkur	35,896
Mysore	45,369
Hassan	29,280
Shimoga	51,930
Kadur	18,430
Chitaldrug	14,274
Total ...	2,62,100

The probable assets for the year including the opening balance of Rs. 1,41,803 on the 1st July 1912 as estimated by the Comptroller will be Rs. 4,03,903 or Rs. 4,03,900 in round numbers as against Rs. 3,60,000 for 1911-12. These figures are accepted.

2. *Expenditure.*—The grants for the several districts have been proposed by the Revenue Commissioner with reference to the actual outlay incurred during the three preceding years. They are also accepted by the Chief Engineer. Government are, therefore, pleased to approve of them. The lump-sum provision of Rs. 20,000 which the Revenue Commissioner recommends to be set apart for unforeseen charges, will, for the reasons given by the Chief Engineer in para 4 of his note read above, be distributed among all the districts, except Chitaldrug, with the understanding that the Deputy Commissioners concerned will not be allowed to incur any expenditure out of the said allotment without the previous permission of the Chief Engineer. The allotment of Rs. 9,000 for the annual maintenance of the channels under the Marikanave Reservoir proposed by the Chief Engineer is

Land Revenue, dated 10th July 1912.

sanctioned. The total grant for the year will thus be Rs. 2,75,000 as against Rs. 2,53,000 for the year 1911-12, and its distribution will be as follows :—

Government Order No. R. 1384-5—L. R. 484-09-3, dated the 1st September 1911, sanctioning the opening of a toll-bar at a convenient point on the Mysore-Yelwal road within five miles on the west or Coorg side of Yelwal, Mysore District.

READ—

Letter No. 665, dated the 27th June 1912, from the Officiating Deputy Commissioner, Mysore District, proposing to open the new toll-bar near the Yelwal chattram beyond the bifurcation point of the Yelwal-Hunsur and Yelwal-Yedatore roads so as to subject the traffic from the Hunsur side only to the payment of tolls and not the traffic from the Yedatore side which is already subject to the payment of tolls at two places, namely, on Yedatore bridge and at Mysore, and requesting sanction to the construction of a temporary toll-gate shed with a gate at a cost of Rs. 50 and the entertainment of the marginally noted establishment for the purpose and proposing also that the collection of tolls may be managed departmentally for one or two years before the right is sold by public auction.

Total Rs. 15 per mensem.

No. R. 198-200—L. R. 587-11-2, DATED BANGALORE, 11TH JULY 1912.

ORDER THEREON.—The proposal of the Deputy Commissioner to collect the tolls by means of Government Agency tentatively is approved. But the period may for the present be one year to begin with. Sanction is accorded to incur the expenditure proposed in constructing the toll shed, *viz.*, Rs. 50 and on the establishment required for collecting the tolls, which amounts to Rs. 15 per month.

2. The rates proposed are much lower than those now levied at other toll-gates on the Provincial and District Fund roads in the Mysore District. The Deputy Commissioner is requested to adopt for the new toll-gate the rates now levied at the Yedatore bridge across the Cauvery with the Provincial road rates for items on which no toll is now levied on the said bridge. The schedule of rates will thus be as given at foot of this order. The Deputy Commissioner will be good enough to publish a notification in the Gazette so as to give effect to the levy of tolls from the 1st of August 1912. The site suggested by the Deputy Commissioner for the toll-gate is also approved.

3. The delay in giving effect to the Order of Government, regarding the opening of the toll-gate, issued so far back as September 1911 (nearly ten months ago) is very much regretted. The toll having been sanctioned in respect of a Provincial road, there was no necessity for the question being referred to the District Board. After the matter was discussed by the Board, there was a delay of about seven months in the Deputy Commissioner's Office in reporting the Board's decision for the Orders of Government.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 81, dated the 18th March 1910, from the Superintendent of the Mysore Revenue Survey and Settlement, requesting orders as to whether in taluks into which revised survey settlement has been introduced, the remission of one-fourth of the wet assessment originally allowed as a concession in respect of lands under private enterprise tanks should be continued permanently or should cease with the expiry of the term of the original survey settlement.

2. Correspondence ending with letter No. 6378, dated the 28th December 1911, from the Revenue Commissioner in Mysore, submitting, in continuation of the lists furnished for the other districts, a talukwar list of private enterprise tanks in the Mysore District.

No. R. 227-36—L.R. 345-09-8, DATED BANGALORE, 13TH JULY 1912.

ORDER THEREON.—In the lists furnished by the Deputy Commissioners the total number of private enterprise tanks in the State is shown to be 318, the bulk of which are in the Kolar District.

2. The terms on which permission was to be given to persons coming forward to construct or repair tanks at their own cost were first laid down in the late Commissioner's proclamation of the 13th July 1863. Three classes of concession were allowed. These were (1) a remission of one-fourth of the assessment on the dry lands converted into wet by means of the work, (2) an assessment equal to the highest dry rate in the taluk and (3) a progressive rate of assessment (kowle) to be paid by instalments, increasing year by year. It was left to the option of the persons, who undertook the work, to choose any of the above concessions, but from the particulars which have been furnished regarding the concessions enjoyed by existing private enterprise tanks in the State, it is evident that there are very few cases to which the two latter kinds of concession apply.

3. In the proclamation of 1863, the period during which the concessions would be allowed had not been fixed. So in 1871 another notification was issued stating that the concessions set fourth in Circular No. 227, dated the 31st March 1863, would, as a rule, be restricted in the case of future works to such limited periods, ordinarily not exceeding thirty years, as might be fixed at the time of authorising each such work. It was also stated that each case would require the special sanction of the Chief Commissioner and that the rates of assessment in force on the lands at the time of the grant would continue to be liable to revision at each new settlement, equally with those imposed on ordinary kandayam lands. In the case of tanks that had been constructed or commenced prior to the issue of the notification of 1871 with the sanction of competent authority, it was, however stated that the terms of the grant would not be interfered with so long as the works were duly maintained at the approved standard by the parties, who had undertaken their repair or construction. The Superintendent of Survey interprets this proviso to mean that as regards tanks constructed under the authority of the proclamation of 1863, the duration of the concession is not limited to any period, the only condition being that, if the tank is not properly maintained, the concession will be withdrawn.

4. Although the Circular of 1871 directed that each case in which concessions were allowed should be separately sanctioned by Government, there have been very few cases in which such sanction was obtained and the Survey Commissioner (Colonel Grant) during original survey and settlement has allowed the concession of reduced assessment, without any limitation as to the period, to all cases in which written authority could be produced and in which it was proved to his satisfaction that the work for which the concession was claimed had been carried out by the applicants. Thus even in the case of tanks undertaken subsequently to 1871, the limited nature of the concession has not been expressly indicated by the Survey Department, though strictly speaking, the concession, having been allowed in accordance with the Notification of 1871 should be deemed subject to the conditions expressly laid down therein. Lists of tanks in some of the settled taluks were also sent up to Government and the action of the Survey Department has been generally approved, no reference being made to the period of the concession.

5. The questions for consideration are (1) how are the concessions allowed in the case of tanks constructed or commenced between 1863 and 1871 to be dealt with during the revision of settlement, (2) whether the concession should be treated as having ceased after the expiry of the period of thirty years in the case of tanks undertaken subsequently to 1871, in accordance with the Notification of 1871.

6. The Superintendent of Survey is of opinion that, as no distinction has been made in carrying on original settlement in the nature of the concessions allowed in the case of tanks that were in existence when they were examined by the Survey Department, it will be difficult to make any such distinction now and proposes that the concession may be continued at least during the currency of the Revision Settlement, in the case of all tanks whether coming under the Notification of 1863 or of 1871, where no period has been specified.

7. Government observe that there is no doubt much to support the view that concessions granted under the rules of 1863 for tanks undertaken prior to the issue of new rules under the Notification of 23rd December 1871 were intended to be permanent, *i.e.*, to ensure as long as the grantee keeps the occupancy or transfers it to assignees without relinquishing it to Government, while in the case of tanks which were constructed subsequently to 1871, the concessions cannot be claimed for a longer period than thirty years. If, therefore, it were possible to ascertain definitely all the private enterprise tanks that had been undertaken prior to 1871, there would be no difficulty in applying the rules in spite of the fact that the Survey Department had made no difference in treatment of the tanks settled by it, under the impression that the rules of 1871 were intended mainly for the guidance of revenue officers to indicate the general principles to be followed in granting permission to private individuals to construct tanks and that they need not be applied in recording the concessions when the tanks had been constructed with proper authority but without reference to any rules.

8. From the lists furnished by the Deputy Commissioners, it is clear that it is now very difficult to differentiate the tanks that were constructed prior to 1871 and this difficulty has become greater by the manner in which they were dealt with by the Survey Department during the Settlement. In the majority of cases, the Deputy Commissioners merely indicate the dates from which the concessions have been recognized, which apparently correspond with the dates on which the settlement was approved by the Survey Department. No information has been furnished in the case of 91 tanks and as no enquiries were made at the time the cases were investigated by the Survey Department as to when each tank came into existence, it will not be practicable to fix these dates now. Government, therefore, agree with the Superintendent of Survey that both classes of cases may be dealt with alike and they are of opinion that where greater concessions are claimed, the burden of proving this right should be thrown upon the persons claiming them. Whenever there is any express grant laying down any special conditions, these terms may be enforced. In cases in which the persons who are entitled to the concessions are able to show that the tank was undertaken prior to 1871 and they have a right to claim the concession permanently, the right may be recognized with the approval of Government.

9. With regard to the general principles to be followed in dealing with other cases, Government observe that, if the order of 1871 is strictly applied, the remission may be taken off at the revision Survey as the period of thirty years would then have elapsed. But the concessions have been allowed not merely for constructing the tank, but also for keeping it in a proper state of repairs and though under the general rules regarding maintenance of tanks, the occupants of the lands under the tank would still be liable for its maintenance after the concession is withdrawn and the tank taken over by Government, it does not seem to be equitable to deprive them of all the concessions, while continuing to hold them liable for the maintenance of the tank. The Committee that was appointed in 1868 to report upon the survey system was also of opinion that the remission should be continued at the next revision of assessment. In these circumstances, Government are disposed to accept the recommendation of the Superintendent of Survey to continue the concession already enjoyed by private tanks during the currency

Land Revenue, dated 13th July 1912.

of the revision of the settlement so long as the tanks are maintained in proper condition according to the approved standard. The Superintendent of Survey is requested to satisfy himself that the tank is maintained in a proper condition in each case before recognizing the concession for a further period. These concessions will not be applicable to recent tanks, in the case of which the rules contained in Appendix F to the Land Revenue Rules of 1890 will be stricty enforced.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 26th July 1912.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 61 of 1911-12.

Appellant Chikramiah of Hariappanahalli in the Tumkur Taluk.

Subject.

Appeals against the order of the Deputy Commissioner, Tumkur District, declining to cancel the Revenue sale of Survey No. 129 of the Brahmasandra village in the Tumkur Taluk.

Facts of the case.

For arrears of land revenue, the survey number in question which was in the khate of one Chiksidda *bin* Karesidda was put up for sale by auction on the 16th September 1910, and as there were no bidders, it was bought in for Government. The next day the appellant produced the full amount of the arrears due from the khatedar, and requested that the sale might be set aside, alleging that he had purchased the land from the khatedar and was in possession of it for some months past. On the 19th September 1910, while submitting the sale records for the orders of the Assistant Commissioner, the Amildar reported that the amount produced by the appellant had been credited to the Treasury and adjusted towards the arrears due from the khatedar. The Assistant Commissioner, Mr. A. K. Syed Taj Peeran, confirmed the sale on the ground that the sale was regular and that the appellant had not his name registered in the Special Notice Register. He further ordered that as the dues of Government had been recovered, no further action need be taken and the land might be disposed of under the darkhast rules.

Against this order the appellant preferred an appeal to the Deputy Commissioner, Mr. K. S. Doraswami Iyer. The appeal was rejected. Thereupon a second appeal was preferred to the Revenue Commissioner, which having been withdrawn under Section 210A of the Land Revenue Code, came for hearing before Government on the 9th July 1912, when the appellant was present in person.

ORDER.—The money paid by the petitioner has been taken in satisfaction of Government demand. If, as stated in the order of the Assistant Commissioner, the petitioner's title had not been made out, the money should have been refunded.

The order of the Deputy Commissioner is set aside, and the registry of the field will remain as it was before the sale.

1. Letter No. 441, dated 11th July 1911, from the Revenue Commissioner in Mysore, submitting for orders letter No. 674, dated 30th June 1911, from the Deputy Commissioner, Hassan District, reporting that a stream forms the frontier boundary between the Madalapur village in the Arkalgud Taluk, Hassan District, and the Doddabandarahalli village in Coorg and that while half the stream on the Mysore side belongs to the State in accordance with the principle laid down in the Survey Rules in such cases as observed by the Superintendent of Revenue Survey in Mysore, the right of the Mysore raiyats over half the portion of the stream on the Mysore side is impugned by the Coorg authorities as some Coorg boundary stones have been fixed on the Mysore side of the stream; and soliciting instructions in the matter.

II. Letter No. Pol. 176, dated 19th August 1911, to the First Assistant to the Hon'ble the Resident in Mysore, requesting him to move the Chief Commissioner of Coorg to direct the removal of the Coorg boundary marks fixed on the Mysore side of the stream and to issue instructions to the Coorg authorities to the effect that the Mysore raiyats should not be disturbed in the exercise of their rights on the Mysore side of the stream.

III. Memo No. 416, dated 22nd January 1912, from the First Assistant to the Hon'ble the Resident, forwarding a copy of letter Dis. C. No. 542, dated 12th January 1912, from the Commissioner of Coorg.

ENCLOSURES.

Letter Dis. C. No. 542-2, dated the 12th January 1912, from the Commissioner of Coorg, Mercara, to the Secretary to the Chief Commissioner of Coorg, Bangalore.

With reference to your endorsement No. 2161, dated the 24th August 1911, I have the honor to forward the enclosed copy of a note by the Deputy Director of Land Records and Agriculture in respect of the boundary dispute between the village of Madalapur in the Arkalgud Taluk, Hassan District, and of Doddabandarahalli in Coorg. I agree with Mr. Haller in his conclusions and am taking the necessary steps for the cancellation of the grant of the land to Maligegowda.

Extract from the note on the boundary dispute between the Doddabandara village (Coorg) and the Madalapur village (Mysore).

* * * * *

2. The boundary survey between the Coorg Province and Mysore took place in the year 1874. It was then that the boundary stones known as "bhands" in Mysore were erected. The stones under reference are *not* new ones and are those of 1874 and were placed by the Madras Survey Department which carried out the village boundary survey of Coorg

3. In the village of Madalapur the stream is not quite correctly shown. The exact position of the stream should be as shown in a tracing of the village plan of Doddabandara (enclosed to this file). It will be kindly observed from this plan that S. No. 234-47, a small wet land of 6 cents has been granted by the Commissioner of Coorg for wet cultivation on the 16th March 1911 to Maligegowda according to the enclosed patta. This grant gave rise to the present dispute. It will be further seen that the stream has altered its course since 1874 and that several stones have, in consequence, disappeared in the bed of the river.

4. In the Madras Presidency the rules relating to streams which form the joint boundary between villages is as follows:—

(*Vide* Madras Survey Manual, Rule 23, Chapter II, page 9.)

"23. When a river forms the village boundary, second class station stones should be erected on each bank, and the middle of the river will be considered the true boundary, provided however that, existing rights are not interfered with."

Only one set of stones was placed for this village by the Madras Survey Department in 1874, but this does not in my opinion infringe the principle that the "middle of the stream should be considered the true boundary." I am of opinion that the existing stones should be preserved as their existence was not challenged for the last 37 years.

But as regards the grant of the land, I consider that it should be cancelled, as the land lies within the Mysore territory.

IV. Unofficial Note No. 21, dated 15th May 1912, from the Superintendent of Revenue Survey, stating that it is ascertained on local enquiry that the stream has not changed its course and remains as it was when it was first surveyed and that there is no inaccuracy in the Mysore map.

Land Survey, dated 5th July 1912.

No. R. 103-4—L. S. 4-11-5, DATED BANGALORE, 5TH JULY 1912.

ORDER THEREON.—Recorded.

2. As the right of the Mysore Government to half the stream on the Mysore side has been admitted by the Commissioner of Coorg, the Mysore raiyats may exercise their usual rights over the same and there is no objection to allow the Coorg marks to remain where they are. It is presumed that they are easily distinguishable from the Mysore marks.

3. In order to emphasize the fact that the real boundary line lies mid stream it is a point for consideration whether Mysore boundary marks may not be placed on the Coorgi bank even as Coorg boundary marks are, as above stated, allowed to be placed on the Mysore bank of the stream.

Letter No. 14973, dated the 25th June 1912, from the Revenue Commissioner in Mysore, forwarding a copy of the statement of cattle mortality for the State for the quarter ending 31st March 1912, with a copy of his review thereon :—

Subject—Statements showing the losses in cattle of various kinds, received from the Deputy Commissioners of Districts, for the quarter ended 31st March 1912.

Recorded.

2. The accompanying consolidated statement shows the extent of cattle mortality in the State during the quarter ended 31st March 1912, as compared with the corresponding quarter of the previous year.

3. There was an increase of 1,276 in the total mortality during the quarter, which was 18,045 as against 16,769 during the corresponding quarter of the previous year. There was a decrease of nearly 400 in the number of deaths due to sickness. This was mainly due to the large decrease, *viz.*, 1,667, in the number of deaths due to sickness among sheep and goats. But among the more valuable cattle, especially among cows, bulls and bullocks, there was a large increase in the mortality due to sickness, which was 3,955 as against 2,793 in the corresponding quarter of the previous year. This was due to the prevalence of *black-quarter* in the Bangalore District, of chapperoga in the Kolar and Hassan Districts, and of foot and mouth disease in the Kadur District.

Letter No. 7983—B. & R. 1008, dated the 22nd June 1912, from the Comptroller, submitting the consolidated Budget Estimates of the State Revenue and Expenditure for 1912-13.

NO. FL. 393—G. F. 660-11-2, DATED BANGALORE, 20TH JULY 1912.

ORDER THEREON.—*Revised Estimate for 1911-12.*—The budget estimates for 1911-12 provided for a total revenue of Rs. 2,35,80,000 and a total expenditure of Rs. 2,39,09,000, leaving a deficit of 3,29,000.

2. According to the revised estimate of the year the total revenue is expected to amount to Rs. 2,49,80,000 and the total expenditure to Rs. 2,35,50,000, leaving a surplus of 14,30,000. The conversion of the deficit into the above surplus is mainly owing to the increase under receipts of Rs. 14,00,000 which is due to the rise in the receipts under Forests (3,79,000), Railways (2,49,000), Land Revenue (4,54,000), Excise (1,35,000), Stamps (1,05,000), Mining Revenue (1,62,000) and Cauvery Power Scheme (1, 14,000) and to small improvements under the other heads. The only falling off was under Interest and Profit or Loss to the extent of Rs. 2,79,000 due chiefly to a technical reason, *viz.*, the fact that the last day of the year being a Sunday, interest on some of the investments could not be credited in the accounts during the year.

On the expenditure side, it is expected that there will be a net decrease of Rs. 3,59,000. The chief heads of increase are Public Works (Rs. 6,12,000 including outlay on Cauvery Reservoir), and Refunds and Drawbacks (Rs. 1,00,000). The expenditure under the following heads is expected to show a decrease; Miscellaneous (Rs. 3,33,000), Army (Rs. 58,000), Scientific and Minor Departments (Rs. 1,01,000), Education (Rs. 1,18,000), Medical (Rs. 97,000), Land Revenue (Rs. 59,000), General Administration (Rs. 1,06,000) and Railways Rs. 1,38,000.

Budget Estimates for 1912-13.

3. *Revenue and Receipts.*—The estimates of Revenue and Receipts as provisionally accepted amount to Rs. 2,41,03,000. The Comptroller has since pointed out that, for reasons given, the receipts under IV Assessed Taxes and XI Profit or Loss should be increased by Rs. 2,000 and Rs. 3,54,000, respectively. Further, the receipts from the Sanitary School to be newly opened are estimated at Rs. 1,000. Government are pleased to adopt the above additions raising the total revenue for 1912-13 under all heads to Rs. 2,44,60,000.

4. *Expenditure.*—The total expenditure under all heads as provisionally accepted is Rs. 2,29,58,000. Certain items aggregating Rs. 48,48,000 which, in the opinion of Government, are necessary, have been subsequently added and are shown in the Statement A appended to this order. It will be noticed that in addition to a special grant of Rs. 2,60,000 for Technical and General Education, the following important items aggregating 43 lakhs have been provided for:—

	Lakhs.
1. Allotment for Cauvery Reservoir Project	20
2. Allotment for construction of new Railway lines	10
3. Fourth Installation of the Cauvery Power Scheme ...	6
4. The construction of a Tramway in Bangalore	7

With the above additions, the total expenditure under all the heads amounts to Rs. 2,78,06,000.

5. The budget estimates for the year 1912-13 providing for a total revenue of Rs. 2,44,60,000 and a total expenditure of Rs. 2,78,06,000 and resulting in a deficit of Rs. 33,46,000 as shown in the accompanying Statement B, are hereby sanctioned. The detailed budget should be worked up accordingly and published in the *Mysore Gazette* for general information with an explanatory financial statement as usual.

6. Government observe that the deficit of Rs. 33,46,000 is not real but only apparent as the true financial effect of the budget after making allowance for the

special capital expenditure of 43 lakhs referred to in para 4 *supra*, is not a deficit but a surplus of Rs. 9,54,000. In para 18 of the Budget Notes the Comptroller solicits orders as to how the 'programme' expenditure is to be shown in the budget and in the accounts, and whether the budget should be cast as usual showing a deficit of Rs. 33,46,000 or as having a surplus of Rs. 9,54,000, the 'programme' expenditure of 43 lakhs being shown outside the budget, as paid out of the accumulated cash balance. Government are pleased to direct that the former procedure be adopted and that in the Financial Statement the situation be clearly explained.

Financial Secretary to Govt.

Letter No. 7737, dated 23rd March 1912, from the Excise Commissioner in Mysore submitting the record of enquiry relating to the claim to the toddy revenue of Jodi Dodda gandlapalli village, Bowringpet Taluk, Kolar District.

No. FL. 54-6—S. R. 204-11-2, DATED BANGALORE, 6TH JULY 1912.

ORDER THEREON.—No evidence is produced in support of the claim, and Srinivasa Chakravarti representing Venkataswami and other jodidars appeared before the Deputy Commissioner, Kolar District, on 25th March 1911, and admitted that the sannad does not concede the right to the toddy revenue. The claim is therefore rejected as recommended by the Deputy Commissioner and the Excise Commissioner.

ORDER THEREON.—Recorded.

2. During the year under review 1,496 proposals were dealt with as against 2,044 in the previous year. The decrease is due to the fact that in the previous year a large number of applications from school-masters was received. The minimum pay of school-masters having been raised to Rs. 10 in 1908-09, a considerable number of teachers became eligible for insurance in that year and the proposals of many of these were submitted in the following year.

3. Policies were issued in 1,175 cases during the year under review, the aggregate bonus assured being Rs. 4,81,933 and the total of monthly premia Rs. 1,665.

4. There were 94 deaths during the year as against 50 in the previous year. Plague was the cause in 34 per cent of the total number of deaths as against 25 per cent of the previous year.

5. Including 80 claims for Rs. 66,435, reported to have been discharged during the year, the total number of claims discharged from the commencement was 622, involving the payment of a sum of Rs. 5,61,992-12-0.

6. The receipts of the fund during the year were Rs. 3,25,105 and the disbursements Rs. 1,49,516. The balance at the credit of the fund, which was Rs. 20,19,450 at the beginning of the year, stood at Rs. 21,95,039 at the close.

7. The balance at the credit of the fund is steadily increasing and the cost of management is kept low being 2·59 per cent of the premium income.

8. During the year under report, a Family Pension Branch has been started which Government employees who are eligible for insurance can join at their option, besides subscribing to the ordinary Insurance Branch. Government hope that the usefulness of the Insurance scheme will be increased by the addition of this new Branch.

Letter No. 6513—Pen. 586, dated the 1st May 1912, from the Comptroller to Government, submitting for the Orders of Government an application for extraordinary pension claimed on behalf of the family of the late M. B. Mariappa Pillai, Hospital Assistant, Kolar Gold Fields, together with his report thereon.

No. Fl. 106-51—S. & A. 564-11-2, DATED BANGALORE, 9TH JULY 1912.

ORDER THEREON.—The Hospital Assistant died of plague on the 7th November 1910. But the circumstances under which he caught the infection have not been explained and the formal inquest report required under Article 402 of the Mysore Service Regulations not furnished. In his letter No. 3489, dated the 26th February 1912, to the Comptroller, the Senior Surgeon says "the cause of death *viz.*, plague, obviously precluded the necessity of a formal inquest of the kind referred to, while the Health Officer's certificate as to the cause of death seems to answer the purpose: in point of fact no inquest was held in the present case." The object and scope of the inquest enjoined by Article 402 of the Mysore Service Regulations refers not so much to the *cause* of death as to the circumstances under which the death occurred. As in claims for extraordinary pensions, it is not so much the cause of death that is material as the circumstances under which the death occurred. In the present case the fact that the Hospital Assistant was in charge of an infectious hospital is sufficient to raise a presumption that he caught the infection while in the discharge of his official duties. But such a presumption cannot be conclusive in the absence of evidence to prove it, which a formal inquest might have brought forth. Strictly speaking, therefore, a case for extraordinary pension has not been made out. As, however, it is most probably a case of infection caught while on duty, the Government of His Highness the Maharaja are pleased to take a favourable view of the case and to sanction under the provisions of Article 300 (*b*) ii of the Mysore Service Regulations, the payment of an extraordinary pension of Rs. 15 only per mensem to Joseph Ratnavelu, the eldest surviving son of the deceased for the support of the family for a period of twelve years with effect from the 8th November 1910, the amount of pension being debited to General Revenues.

CIRCULAR.

No. J. 45-54—Cts. 181-11-14, dated Bangalore, 3rd July 1912.

The attention of Government has been drawn to the fact that the half-yearly returns of persons surrendered by the State to the British Indian Courts are not generally complete in as much as the results of the trial of such persons in British India are not noted therein. It is reported that the omission in the returns is due to the difficulty experienced in getting the required information from the authorities in British India.

Government consider that the officers of the State can obtain the required information expeditiously and completely by direct communication with the Magistrates in British India to whom the surrender is made and they are accordingly pleased to direct that the local District Magistrate or Officer in charge of Jails while surrendering a prisoner should, simultaneously with the surrender, ask the Magistrate in British India on whose warrant the surrender is made, to intimate to him the result of the trial of the prisoner surrendered.

Letter No. 432–91-07, dated 4th May 1912, from the Inspector-General of Prisons in Mysore, forwarding a Report on the Administration of Jails and Lock-ups in the State during the calendar year 1911.

No. J. 134-44—PRIS. 54-11-4, DATED BANGALORE, 12TH JULY 1912.

ORDER THEREON.—The number of prisoners admitted to the Jails and Lock-ups during the year under report showed a fall of 1,109 as compared with the year 1910. The decrease is attributed by the Inspector-General to favourable seasonal conditions. One consequence of this was a slight decrease in the total expenditure of the State on Jails and Lock-ups.

2. Government are glad to notice an improvement in the health of the prisoners that passed through the jails. The modified scale of vegetarian diet which has been in use in the Jails of Bangalore and Mysore from the 1st April 1911, in respect of hard labour Indian convicts, is reported to have yielded favourable results, and its continuance for a further term of three years has accordingly been sanctioned by Government.

3. The Khaki Weaving Industry sanctioned in Government Order No. J. 2973-5—Pris. 66-08-5, dated 5th April 1911, has not yet been started in the Bangalore Central Jail. Orders have, however, been recently passed directing that provision should be made in the Public Works Budget for 1912-13 for erecting a shed to accommodate 48 looms, and for the purchase of tools, plant and raw materials necessary for starting the industry.

4. The thanks of the Government are due to the representatives of the several Religious Agencies who undertook, during the year, the task of imparting religious instruction to the convicts in the Jails at Bangalore and Mysore.

Letter No. 5413—579, dated the 29th June 1912, from the Inspector-General of Police in Mysore, forwarding the following Report on the working of the Coffee Stealing Prevention Act for the season ending 31st March 1912:—

During the year under report no cases were reported under the Special Law. The District Magistrate of Kadur attributes this as due to the effective Police arrangements made to watch the coffee crop during the picking season, as had been observed by the District Magistrate of Hassan during the previous year.

2. The following statement shows the number of cases of coffee stealing dealt with under the Indian Penal Code:—

District	Cases										Persons						Remarks

Of the total number of 47 cases reported, Hassan District alone is shown as having contributed 33, while practically there were only 6 cases, one of which was split up and registered as 27 cases to avoid technical objections.

It occurred on the 29th February 1912 in Malagalale Estate Manjarabad Taluk, in which Mr. Crawford was the complainant and all the accused persons were Estate coolies

Of the 58 cases investigated seven ended in conviction, 39 were pending with Magistrates, five with Police and the rest were otherwise disposed of.

3. Four constables were placed at the disposal of the Planters in the Hassan District and none in the Kadur District.

4. The one case referred to in para 2 of the last year's report ended in conviction and the accused concerned in that case was sentenced to pay a fine of Rs. 5.

5. The delay in the submission of this report is due to the non-receipt of the District reports in time which is much to be regretted.

Letter No. 14758, dated the 25th June 1912, from the Revenue Commissioner in Mysore, forwarding the following report of the Deputy Commissioner, Chitaldrug District, on the cattle show held at Harihar in March 1912:—

Letter, dated 17—18th June 1912, from K. Chandy, Esq., B.A., Deputy Commissioner, Chitaldrug, to K. Doraswami Iyer, Esq., Officiating Revenue Commissioner in Mysore.

I have the honor to submit the following report in connection with the cattle show held at Harihar during the month of March 1912.

2. The townspeople of Harihar having presented a petition to the effect that arrangements may be made this year also for holding a cattle show at Harihar on the occasion of Sangameswara Jatra in March 1912, the matter was placed before the District Board, and the members thereof having unanimously approved the idea, a recommendation was submitted to Government soliciting sanction for the holding of the cattle show and also for a grant of Rs. 200 from District Funds, to meet the expenses of the same. The Government in their Order Nos. 4920-4—L. B. 179-11-3 and 5899—L. B. 179-11-6, dated 22nd January and 24th February 1912, respectively, were pleased to accord sanction to the above proposals.

3. *Prospectus.*—The prospectus which was approved by Government, was widely distributed in and outside the Province (Appendix I).

4. *Committee of management.*—A committee consisting of the leading respectable inhabitants of the town, was formed for managing the affairs of the show. The names of the members who formed the Managing Committee, are given as Appendix II. A committee of judges, with the Sub-Divisional Officer as President, was also formed for judging the prize winners. The committee members with Mr J. Balaji Row as President of the Managing Committee and the Deputy Amildar Mr. S. Anantharamiengar, strove their utmost to make the show a success, under the guidance of the Sub-Divisional Officer. I also visited Harihar prior to the show and gave the necessary suggestions. A decent pendal was erected in front of the Sangameswara temple which added greatly to the beauty of the show.

5. *Number of cattle exhibited.*—The show was opened on the 10th of March 1912 and continued for two days. The number of cattle collected on the day on which the show was opened, was rather discouraging, and it was apprehended that the number exhibited this year would be far less than that of the preceding year, and that as such, the show would prove an unsuccessful attempt. But on the evening of the 10th March and on the following two days, cattle began to pour in from all parts of the Province and also from the adjoining British Taluks of Harapanahalli and Ranebennur in the districts of Bellary and Dharwar respectively, so that by the 13th morning the total number rose to 38,818 which was beyond all expectation and far in excess of the number collected last year, which was only 21,347.

6. *Number of cattle selected.*—As was done last year, an enclosure was made to admit cattle, and the owners informed that if they wished to compete for prizes, they may take their cattle to the enclosure on payment of the fees prescribed by the Managing Committee. A sum of Rs. 13-9-0, was the income realised from this source. Appendix III gives the number of cattle admitted to the show and the particulars of fees levied on them.

7. *Classification of cattle according to breeds, size, age, etc.*—The cattle collected at the jatra consisted of different kinds of breeding animals properly known as, Javari, Hatte Dagina, Korachar, Yokavi, etc., which may be classified as follows:—

Draught bullocks	...	10,800	Sheep	...	58
Plough bullocks	...	7,365	Goats	...	55
Single bullock	...	178	Buck	...	10
Breeding bull	...	10,012	Pony	...	12
Calves	...	10,291			
Cows	...	19			
Cow buffaloes	...	3			38,818
Bull buffaloes	...	10			
Ram	...	5			

8. *Number of prizes awarded.*—Prior to the distribution of prizes, Mr. Balaji Row, the President of the Managing Committee, read a short speech explaining the object and importance of the show, to the assembled raiyats. I also spoke a few words about the usefulness of the show and the necessity and importance of paying particular attention to the proper breeding of cattle which forms the chief source of agricultural prosperity, and distributed the prizes in person. The prizes awarded consisted of gold and silver medals and also cash payments. Of the nine gold medals available for prizes, only seven were awarded, the remaining two being reserved for next year. In spite of the timely publication of the notice of the show, in and around the district, the number of ponies collected was small this year also. Only one pony secured a gold medal, the remaining six gold medals and the eleven silver medals were awarded to the bullocks, cows, etc., selected by the judging committee as deserving of prize. It was considered essential to award small money prizes to some people who had grown best Cambodia and Broach cotton, in presence of the gathering, so that it may serve as a sort of encouragement for people to make future efforts about the growing of superior agricultural products. On my recommendation, the Secretary to the Economic Conference, sanctioned a sum of Rs. 25 for the purpose. The money prize awarded amounted to Rs. 58 in all. It included the cash prizes given to the owners of good breeding animals, as well as to persons who had grown Broach and Cambodia cotton, and also to persons who displayed general efficiency in music, etc , during the show. The particulars of prizes awarded and the names of prize winners are given in Appendix IV. It is gratifying to note in this connection, that the kind and quality of cattle collected this year was superior and the amount realized by the sales of cattle amounted to nearly a lakh of rupees, the prices ranging from Rs. 40 to Rs. 650 a pair.

9. *Place of cattle show and its suitability as regards water-supply and sanitary requirements.*—The place selected for the show was the maidan near the Sangameswaraswami temple in the bed of the Tungabhadra river. This is the best place in the locality for holding the show, there being plenty of room available for accomodation and the proximity of the river affording facility of water-supply. Further its situation entirely outside the town limits, is admirably commendable for selection from the sanitary point of view. Moreover, Harihar being a Railway Station, there is every facility for merchants, traders and other intending purchasers both of the British Provinces as well as of the Mysore Province, for attending the show without much inconvenience and cost. The number of visitors on the occasion of the show this year, was nearly a hundred thousand. There were 235 stalls selling various things. The majority of the cattle owners had brought sufficient supply of fodder with them but still arrangements had been made for the ready supply of fodder for persons desirous of buying the same. Dramas, merry-go-rounds and other amusements had also been arranged for the recreation of the visitors. It was decided to levy a small fee on these and the income realized was Rs. 104-2-0.

10. *Lectures.*—Under the personal direction of Dr. Coleman, who was kind enough to be present at the show, Messrs. Yegnanarayan Iyer, Ranganatha Row and Ramachandra Row delivered lectures in Kanarese to the raiyats assembled, on general improvement of agriculture, on locust pests, Kadige roga and on sugarcane cultivation. The Inspector of Cattle Diseases and the Assistant Veterinary Inspector also delivered lectures on the methods to be adopted for improving the breed of cattle and arresting the spread of the cattle disease. Mr. Kulkarni, the Divisional Agricultural Superintendent of Dharwar, who was also present, delivered a lecture on the advantages of improved English iron ploughs, etc. The lectures were all well attended and greatly appreciated by the audience.

11. *Demonstrations.*—Dr. Coleman exhibited to the raiyats the different kinds of ploughs and other agricultural implements of modern invention, specimens of certain insects, cotton, groundnuts, paddy, etc., the jaggory boiling and the manufacture of sugar.

Mr. J. Subba Rao, the Secretary of the District Agricultural Association secured the Japanese Hand Gin from Dharwar Government Farm and demonstrated its use to the raiyats. Though this machine is reported to cost only Rs. 120, it is capable of ginning 250 lbs. of cotton with the help of an adult and a boy in 10 hours, and considering the cheapness in its cost and the capacity it possesses, many leading raiyats were inclined to go in for it. It is needless to submit that these lectures and demonstrations were well worthy of the occasion and the impression made by them on the minds of the assembled people was decidedly great and far reaching in its effects. The lighting as well as the police arrangements on the occasion of the show were also satisfactory.

Local Fund and Sanitary (Local Boards), dated 22nd July 1912.

12. *Total receipts, viz., from fees, private subscriptions, contributions.*—The details of receipts and expenditure are given below:—

RECEIPTS.

	Rs.	a.	p.
1. Government grant applied for	200	0	0
2. Private subscription	12	0	0
3. By sale of manure	140	0	0
4. Realization from shops, etc.	104	2	0
5. Do of fees for selected cattle admitted to the show...	13	9	0
6. Amount realized by the sale of materials of pendal, etc. ...	11	12	0
Total ...	481	7	0

EXPENDITURE.

	Rs.	a.	p.
1. Cost incurred for constructing a pendal, etc.	68	7	10
2. Contingencies and miscellaneous	10	4	6
3. Cash prize given to owners of cattle for general efficiency, etc.	44	0	0
4. Cost of photos of prize won cattle	18	12	0

6. Telegram charges	14	1	0
Total ...	292	9	4
Deduct the cost of 2 gold medals reserved for next year (medals worth Rs. 15 and 10, respectively).	25	0	0
Total ...	267	9	4

It will be seen from the above that the expenditure was nearly half of the income and there has been a net saving of Rs. 213-13-8.

13. *Photos.*—I herewith send 6 photos taken on the occasion. Two of which relate to the general and side views of the show ground and the remaining four pertain to the cattle that won prizes on the occasion of the show.

14. *Concluding remarks.*—The increase year by year in the number of cattle collected and the people assembled to witness the show, bears ample testimony to the popularity of the show. The show also enables a large section of the raiyat population to be immensely benefited by the lectures delivered and the demonstrations shown by experts in connection with agricultural, cattle breeding and other important subjects which would otherwise not have been practicable for them. Apart from the educative value, the show also affords ample facilities for the raiyats desirous of purchasing cattle for their agricultural pursuits, to choose the best among the cattle collected and purchase the same without much expense and trouble. This annual function is particularly important as providing means for the improvement of the breed of cattle in this part of the Province. The substitution of healthier varieties in the place of deteriorated once and the ample scope provide for the selection of breeding bulls numbering a little more than 10,000, go far towards the improvement of cattle, a matter of vital importance in agriculture. The show is thus in more than one respect beneficial and useful for the raiyat community and I beg to recommend that it should be made a permanent annual function.

Letter No. 11155—820, dated the 21st June 1911, from the Inspector-General of Education in Mysore, reporting that in connection with the transfer of a provision of Rs. 12 from the school at Byagala in the Maddagiri Taluk to the school at Achanpalli in the Pavagada Taluk instead of a place on Rs. 10, the Comptroller states that alterations in the scale of a school are not admissible without the sanction of Government, and requesting that the existing flexible arrangement under which the Inspector-General has been altering scales of schools may be ordered to be continued as certain elasticity of provision seems to be quite necessary where both the number and character of the schools fluctuate and changes have to be made as the circumstances of the localities change.

No. 329-30—EDN. 479-10-2, DATED BANGALORE, 10TH JULY 1912.

ORDER THEREON.—On a careful consideration of the circumstances, the Government are pleased to authorise the Inspector-General of Education in Mysore to alter scales of establishment of Anglo-Vernacular Schools, Taluk Boys' and Girls' Schools and Village Elementary Schools wherever it is necessary to do so in the interests of the public service, provided that no extra cost is involved. The changes made by the Inspector-General should be communicated to the Comptroller in the form of a regular proposition statement, so that he may issue necessary instructions to the Treasuries concerned. Cases involving extra cost should continue to be submitted to Government for sanction.

Letter No. 7222—536, dated the 12th March 1912, from the Inspector-General of Education in Mysore, stating that, under Rule 3 of the rules for the grant of technical scholarships, a scholarship is usually tenable for a period of three years and that in accordance with this rule provision is usually made for thirty scholarships in the budget estimates of Industrial Schools as ten scholarships are awarded every year and recommending that the maximum number of technical scholarships tenable at a time may be raised from 30 to 35 as the courses in the subjects of Electrical Engineering, Mechanical Engineering, Textile Manufacture and Technical Chemistry in the Victoria Jubilee Technical Institute, Bombay, have been raised to four years since 1909, the provision made for the five extra scholarships being earmarked for these long course students.

No. 737-S—EDN. 73-11-47, DATED BANGALORE, 22ND JULY 1912.

ORDER THEREON.—Government direct that in the case of candidates taking up the subjects referred to in the Victoria Jubilee Technical Institute, Bombay, the scholarships be made tenable for four years and that not more than five scholars be permitted to take up these subjects in any one year. Rule 3 of the rules for the award of technical scholarships will be modified as shown below:—

Present Rule.	*Modified Rule.*
"They (the scholarships) will be awarded in the first instance for one year and continued at the end of the first year by periods of one year at a time on the recommendation of the Head of the Institution which the scholar attends. Usually a scholarship will be tenable for a period of three years."	"They (the scholarships) will be awarded in the first instance for one year and continued at the end of the first year by periods of one year at a time on the recommendation of the Head of the Institution which the scholar attends. Usually a scholarship will be tenable for a period of three years. But in the case of candidates selecting any of the subjects *viz.*, Electrical Engineering, Mechanical Engineering, Textile Manufacture and Technical Chemistry in the Victoria Jubilee Technical Institute, Bombay, the period of the scholarship will be four years. Not more than five scholars will be permitted to take up these subjects in any one year."

2. The provision required every year for these scholarships will be made in the budget estimates of industrial and other special schools in Mysore.

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE
GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, 4th July 1912.

CIRCULAR.

With reference to this office Circular No. G. 6662-70—G. M. 135-09-47, dated the 3rd—6th June 1910, prescribing the periodical submission of certain reports and returns of newspapers published in the State, the following fresh instructions are issued in supersession of all previous instructions on the subject:—

(1) Quarterly returns of newspapers and periodicals published in the districts need not be furnished in future to this office:—

(2) An annual return, prepared in accordance with the following instructions, should be submitted so as to reach this office not later than the 20th January following the close of the calendar year to which the return relates:—

(*a*) The return should be prepared in the annexed form;

(*b*) The names of the papers should be arranged alphabetically and grouped according to the several languages in which they are published;

(*c*) The return should contain all the newspapers and the periodicals published during the year under report and should include those discontinued in the course of the year, the exact dates of the discontinuance of such papers being noted in the last column of the return. If a paper started, ceased to exist or was temporarily discontinued during the year of report, the facts should be mentioned with dates in the last column;

(*d*) If a paper is printed in one town and published in another, the fact should be clearly stated in column 4;

(*e*) If there is any noticeable fluctuation in the circulation of any of the newspapers or periodicals, the cause for the fluctuation should be satisfactorily explained in the return;

(*f*) It should be noted that under the term "status" in columns 9 and 10 of the return, information should be furnished as to whether the person concerned belongs to a respectable family, possesses lands or movable property, what his occupation and educational and other qualifications are;

(*g*) Column 13 of the return should contain a full note on the tone, influence and contents of each paper.

(3) Copies of all declarations made under Sections 4 & 5 of Act XXV of 1867, by the keepers of printing presses as well as by printers and publishers of newspapers and periodicals should be arranged to be forwarded to the Secretary to Government, General and Revenue Departments, within a week after such declarations are filed.

(4) Special reports should be furnished to Government whenever a newspaper of a political character is started or discontinued, or whenever any material change occurs in the Editorship, Proprietorship, place of printing and publication, and tone of such a paper, exact dates of such changes and other necessary particulars being also embodied in the reports concerned, together with information under the head of "antecedents" as to whether the previous character and conduct of the person concerned, are satisfactory or not to the reporting officer.

(5) The Superintendent of the Government Press is requested to have a sufficient number of copies of the form printed and kept in stock for supply to District Magistrates and the General and Revenue Secretary on requisition.

By Order,
K. R. SRINIVASIENGAR,
Offg. Secy. to Govt., Gen. & Rev. Depts.

Government Order No. Mily. 1489-90—220-09-6, dated the 1st July 1910, directing the distribution of the establishment of the late Military Assistant's Office between the Military Secretary to His Highness the Maharaja of Mysore and the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments and fixing for the time being the scale of the establishment of the Military Branch of the General and Revenue Secretariat.

No. 4—MILY. 209-10-1, DATED BANGALORE, 2ND JULY 1912.

ORDER THEREON.—In order to secure facility of work in the Military Branch of the General and Revenue Secretariat, and to maintain its efficiency it is considered necessary to bring the rate of pay of the existing clerks of that Branch into line with that of the rest of the Secretariat.

2. The Government are therefore pleased to accord sanction to the present fixed scale of 3 hands on Rs. 40, 25 and 20 respectively, being reorganised into a progressive scale of three hands on Rs. 30-4-50, which is the last grade in the Secretariat, with effect from 1st July 1912, suitable provision being made in the budget.

3. The scale of establishment as thus revised will be as follows:—

Present.

Government Order No. Mily. 2738-9—145, dated the 28th May 1903, passing orders regarding the re-organization of the Imperial Service Regiment on the Jhoorawallah System and directing that the civilian writers employed in the Regiment be replaced by Combatants as vacancies occur.

2. Correspondence ending with letter No 3922, dated the 16th March 1912, from the Chief Commandant, Mysore State Troops, forwarding a proposition statement for the revision of the clerical establishment of the Imperial Service Regiment in order to replace the present civilian writers by combatants.

No. 15-16—MILY. 277-10-6, DATED BANGALORE, 9TH JULY 1912.

ORDER THEREON.—The proposal of the Chief Commandant, Mysore State Troops, for the revision of the clerical establishment of the Imperial Service Regiment in order to replace the present civilian writers by combatants, on their rank pay plus the allowances proposed and resulting in a saving of Rs. 78 per mensem is sanctioned as shown hereunder :—

No.	Present Scale	Average cost	No	Revised Scale	Average cost
		Rs.			Rs.
1	Regimental writer on Rs. 42	42	1	Combatant Head Clerk on rank pay+an allowance of Rs. 38 (less Rs. 20 horse pay, etc)	38
1	Assistant writer on Rs. 31	31			
1	Office writer (sick line) on Rs. 20	20	1	Combatant Accountant on rank pay+an allowance of Rs. 35 (less Rs. 20 horse pay, etc.)	35
1	Squadron writer on Rs. 31+4	35			
3	Squadron writers on Rs. 31. each ...	93	4	Combatant Squadron writers on rank pay+an allowance of Rs. 14 each (less Rs. 20 horse pay, etc.) ...	56
	Total ..	221			
			1	Combatant Quarter Master Clerk on rank pay+an allowance of Rs. 14 (less Rs. 20 horse pay, etc). ...	14
			3	Combatant Probationers on their rank pay ...	...
				Total ...	143

2. As however, no qualified hands are said to be available at present among the combatants for appointment to the places as in the revised scale indicated above, the Chief Commandant, Mysore State Troops recommends that, as a temporary measure and until such time as qualified combatants become available, the five civilian writers now remaining in the office out of a total sanctioned strength of seven men should be retained on their present pay plus certain allowances proposed and that when combatants are sufficiently trained to take their places, such of the civilian writers as have completed their service will be retired and others brought on the supernumerary scale till they complete their service or are otherwise provided for. The above proposals are also approved subject to the condition, however, that the total cost of the establishment at any time until the civilian writers are retired on

Military, dated 9th July 1912.

pension or otherwise provided for, should not exceed the cost of the present scale, *viz.*, Rs. 221 per mensem. The modified scale of the non-combatant establishment as thus provisionally sanctioned will be as shown hereunder:—

1 Regimental writer on Rs. 35+an allowance of Rs. 5 to start with and rising to Rs. 25 by annual increments of Rs. 4.

1 Assistant Regimental writer on Rs. 31+an allowance of Rs. 4 to start with and rising to Rs. 19 by annual increments of Rs. 3.

1 Office writer on Rs. 20.

2 Squadron writers at Rs. 31 each.

READ—

Letter No. 18, dated 15th December 1910, from the Muzrai Superintendent and President, Ayurvedic College Committee, forwarding a copy of the resolution of the Committee about the prospects of the students passing out of the College and obtaining diplomas, and stating that, if a fair trial is to be given to the scheme of encouraging the indigenous system of medicine, it is very necessary to define the prospects of these passed candidates.

No. 1-3—Muz. 304-10-2, dated Bangalore, 1st July 1912.

ORDER THEREON.—The Senior Surgeon who was consulted in the matter is of opinion that, while it is inadvisable to place these men on a par with Sub-Assistant Surgeons, who are fairly well trained in the European system of the Medical service, it is necessary that some prospects of employment should be offered to them after they pass out from the Ayurvedic College, and he recommends a scale of pay for them fixed at Rs. 15, Rs. 20 and Rs. 25 per mensem.

2. Government consider that no appointments can be guaranteed to the candidates passing out of the Ayurvedic College. Preference will, however, be given to these men, when appointments of Pandits have to be made for charge of Native Vaidyasalas, which may be opened in future. The scale of pay of these men, when so appointed, will be fixed at Rs. 15 rising to Rs. 30 per mensem.

READ—

The Revenue Commissioner's review of the Famine Relief Programmes for the year 1912, received with his No. 12028, dated the 18th April 1912.

Dates of receipt.—The programmes due in this office from the Superintending Engineers on 1st March 1912 were received very late, the programmes for the districts comprised in the Northern Circle except the Public Works Programme of the Chitaldrug Division having been received on 16th March and the programmes for the Bangalore and Mysore Districts, on the 21st March 1912. The Public Works Programme of the Chitaldrug Division was received so late as 9th April 1912.

Summary of the programmes.—The total number of projects of all kinds is 6,846 of an estimated cost of Rs. 2,62,16,922, out of which a sum of Rs. 1,77,72,663 or 67·79 per cent is available for the employment of 266,589,945 units of famine labour. Particulars of the several classes of projects are given below:—

4. *Number of persons to be provided for.*—According to Section 20 of the Famine Code, provision has to be made for the relief of 706, 426 persons for six months, *i.e.*, for 127, 156, 680 units.

5. *Adequacy of the programmes.*—It will be seen from the figures shown in the following statement that, taking sanctioned programmes alone, provision has been made for 76·8 per cent of the total number of units of famine labour required to be provided for under the Code. The percentage is lowest in the Kolar District, being 25 per cent. Taking the sanctioned and the emergency programmes together, ample provision exists in all the districts.

The number of A class works in the Kolar and Tumkur District Village Relief Programmes is very small, being only 2 and 5, respectively. It is hoped that plans and estimates for many more works will be submitted, by the Deputy Commissioners of these two districts, for approval in the Public Works Department so that they may be brought under the sanctioned programme for the next year :—

6. *Defects in the programmes.*—Some of the defects noticed in the programmes are noted below :—

Public Works—

(1) Nos. 12, 31 and 48 in the Kolar District programme are classed as IIIA but shown under B instead of under A, while No. 39 is classed as IIB and shown under A instead of under B.

(2) No. 28 in the Bangalore District is classed as IIIC but shown under A.

(3) Nos. 34, 35 and 36 in the Tumkur District are classed as IVA but shown under A, while No. 184 is classed as IA and shown under B.

(4) Nos. 55 and 75 in the Kadur District are classed as IIIC and IIB, respectively, but shown under A.

7. The total number of persons available for famine duty in each district is noted below, as shown in the lists appended to the programmes for the two years 1912 and 1911 :—

	1912.	1911.
Bangalore	662	105
Kolar	430	369

8. Forms Nos. III, IV and IVA are herewith submitted.

Public Works, dated 20th July 1912.

No. 887-98—5913-24, DATED BANGALORE, 20TH JULY 1912.

ORDER THEREON.—The following points in the Revenue Commissioner's review call for notice.

2. *Para 1.*—The programmes were submitted to the Revenue Commissioner very late. The importance of punctual submission of the programmes should be once more impressed upon the officers concerned.

3. *Para 5.*—There are still some 26 works entered as good and useful ones in the Public Works emergency programme of the Kolar District. If plans and estimates are prepared for these works, the provision under the sanctioned programme can be increased by about 5 per cent. The attention of the Superintending Engineer, Northern Circle, has been drawn to the matter in the past and he will be again requested to take early action.

The remarks of the Revenue Commissioner regarding the deficiency in the number of A class works in the Village Relief Programmes of the Kolar and Tumkur Districts are repeated year after year and the attention of the Deputy Commissioners concerned has been invited to the same in the past. It is necessary that the deficiency should be quickly rectified. Needful action may be taken at once.

4. *Para 6.*—The defects in the programmes pointed out by the Revenue Commissioner should be rectified by the officers concerned and the correct classification adopted in the programmes to be submitted next year.

5. With reference to Section 32 of the Famine Code, the following famine tools are reported to be held in reserve to meet emergent requirements:—

	In the General Stores at Bangalore	In the Districts	Total
	No.	No.	No.
Axes, felling	557	195	752
Do pick	8,090	8,330	16,420
Bill-hooks	1,213	1,656	2,869
Buckets, galvanized	610	89	699
Crowbars, iron	1,808	2,479	4,287
Hammers, sledge	150	50	200
Do stone breaking	16,753	1,657	18,410
Mamuties	10,609	9,385	19,994
Pans, mortar	1,156	1,643	2,799
Pots, iron	175	325	500
Punners, iron	3,085	75	3,160
Saws, cross-cut...	25	.....	25
Saws, hand	155	20	175
Tampers, iron	3,428	812	4,240

The distribution of the stock of tools between headquarters and districts would seem to require some improvement, so that there may be more of them in the districts. The Superintending Engineers of Northern and Southern Circles are requested to look into the matter and submit proposals together with the yearly inspection report prescribed in Section 32 referred to above.

6. A copy of the abstract statement (Form III) of the Famine Relief Programmes for the year under review is appended for information.
